BUSINESS STRATEGY AND ADVISORY

Sentient Partners

Business Strategy. Intelligent Systems. Measurable Results.

Sentient Partners is a founder-led consultancy for growing businesses. We start with how the business actually runs, agree on what is worth fixing first, then build and launch the systems that put the plan to work, and measure the result.

Start where it hurts most.

Missed calls. Lost leads. Hours of double entry. Pick one. We bring the plan and the systems.

01

Advise & Grow

A clear view of your business, a sensible roadmap and priorities, and hands-on implementation.

02

Attract & Convert

Websites, search visibility and reputation that help the right customers find you, trust you and get in touch.

03

Automate & Communicate

Chat and voice assistants, scheduling and follow-up, so inquiries are answered and nothing slips.

04

Operate & Scale

Business applications and workflow automation for jobs, crews, estimates and invoices, with less retyping.

How we partner

01

Discover

We learn your business, where it sticks, and what's worth fixing first.

02

Design

A practical strategy, clear priorities, and a roadmap we agree on.

03

Deliver

We build, test and launch with your team, then refine as you grow.

Direct access to your partner. No hand-offs: the person on your first call builds your system.

CAPABILITIES

Systems that put the plan to work.

Each engagement is scoped to your business, budget and existing tools. We recommend a solution only after understanding how you work today.

01
Premium websites
Custom, mobile-first websites with clear messaging, hosting and care.

02
Search visibility
Business profile care, service pages and sound technical foundations.

03
Calendar & scheduling
Online booking, team calendar sync and reminders.

04
Business applications
Practical tools for jobs, customers, estimates and invoices.

05
Workflow automation
Connections between existing tools, with readable rules and human approval steps.

06
Reputation & reviews
Review requests to every customer and drafted responses the owner approves.

07
AI chat assistants
Website and messaging assistants that answer routine questions and hand off to a person.

08
AI voice agents
After-hours and overflow call answering with summaries sent to the team.

Our founder

After senior executive leadership roles at Hewlett-Packard and E*TRADE Financial, Troy Hill founded Sentient Partners to bring that discipline to growing businesses.
